DID YOU KNOW?

Did you know the deepest shipwreck ever discovered lies at 6,895 meters below sea level? That's nearly as deep as 22 Eiffel Towers stacked end to end!

Treasure chests weren't always made of wood some were crafted from iron and reinforced with intricate locks to protect the loot inside.

There are over 8,000 shipwrecks along the Australian coastline, many still holding untold treasures

QUOTES

TO UNEARTH TRUE TREASURES, ONE MUST EMBRACE THE UNKNOWN

ADVENTURE ISN'T FOUND ON THE MAP—IT'S FOUND WITHIN THE JOURNEY

THE SEA IS CALLING, AND SO ARE THE TREASURES IT HOLDS!

Funny

Why don't skeletons fight over treasure? Because they don't have the guts!

What did the ocean say to the pirate? Nothing, it just waved!

Why did the treasure chest feel guilty? It had a lot of hidden baggage!

What's a pirate's favourite letter? You'd think it's "R," but it's really the "C"!

What has no beginning, no end, and holds infinite possibilities? Answer: A treasure map!

Why did the pirate bury his gold in the sand? Answer: Because he wanted to make sure it was shore safe!
